Amendment and Response

Applicant: Jochen Thomas et al.

Serial No.: 10/519,444

Filed: August 26, 2005

Docket No.: I431.123.101 / FIN393PCT/US

Title: ELECTRONIC COMPONENT WITH MULTILAYERED REWIRING PLATE AND METHOD FOR PRODUCING THE SAME

REMARKS

The following remarks are made in response to the Non-Final Office Action mailed October 12, 2006. Claims 1-27 were cancelled and claims 28-55 were added in the preliminary amendment filed on December 29, 2004. With this Response, claims 28, 44, 45 and 55 have been amended. Claims 1 and 55 were amended to more precisely recite the claimed subject matter. Claims 44 and 45 were amended to correct informalities. Hence, claims 28-55 remain pending in the application and are presented for reconsideration and allowance.

The Office Action provided a substantive examination of claims 1-27, with no mention of claims 28-55. Claims 5-16 and 23-27 are objected to under 37 CFR 1.75(c) as being in improper multiple dependent form. The replacement of original claims 1-28 with claims 28-55 in the preliminary amendment eliminated the multiple dependencies, among other things.

The examination of cancelled claims 1-27 rather than pending claims 28-55 was discussed in a brief telephone conference between Examiner Sheila Clark and the undersigned attorney on December 20, 2006. As discussed during the telephone conference, Applicants respectfully request the Office Action dated 10/12/2006 be withdrawn and a substantive examination of the pending claims be provided.
